

Interleges
THE INTERNATIONAL ASSOCIATION OF INDEPENDENT LAW FIRMS

Interleges is the proud sponsor of the
European Law Institute Young Lawyers'
Award 2019

ABOUT INTERLEGES

Interleges was founded in 1989 by a group of like-minded law firms who saw the opportunity of strengthening links in other jurisdictions at a time when boundaries in Europe were coming down. Interleges believes in the benefits of learning from the achievements of the different legal cultures, endorsing the value of comparative knowledge and its members take a genuinely international perspective in dealing with legal issues.

Interleges has grown from its roots in Europe and is now a well-established and closely linked alliance of independent law firms with offices across the countries of the European Union, Eastern Europe, the Middle East and North and South America.

Through Interleges, both business organisations and individuals have access to specialist lawyers who have experience in representing clients from different countries. Wherever necessary, your own lawyer and the overseas Interleges lawyer will work together on your behalf.

Each member of the association is equally committed to providing a quality service and solution to the legal issues you may have. Contact any firm in the Interleges network and you can be confident of receiving the assistance of an experienced lawyer with the requisite local knowledge to provide a quick and effective solution for you.

LEGAL SERVICES

As a network, we provide legal services across international frontiers to enable you to find the right lawyer in a foreign country.

Finding the right lawyer in a foreign country can be difficult and can take time. With more than 20 members in different jurisdictions, Interleges is the solution. By using Interleges, you will have access to specialist and experienced lawyers with the local knowledge you need.

Finding a lawyer in a foreign country you can trust is even more difficult. Because Interleges is a well-established and closely linked alliance, you can be sure to find a lawyer you feel confident in through Interleges.

The members of Interleges frequently collaborate on projects such as publications and seminars for clients, as well as in professional matters. Exchanges between member firms are encouraged, allowing lawyers to spend time learning about the laws of another jurisdiction and the way law is practiced there. The members also meet annually for a three day conference, hosted by a different member each year, which combines the Interleges Annual General Meeting with a chance for members to mix socially.
